My cousin Patty was a very special person. He struggled with MS most of his life, and through his struggles with this awful disease, he always kept such a positive attitude. Patty would never let on to people just how much pain & suffering he was going through. We loved him dearly, and he will greatly be missed. Rest in peace Patty, your pain & suffering on this earth is finally over.

The passing of Pat is a hard one. He was a great person and I was lucky enough to work with him for many years. He taught me many great skills that helped shape me to be the person I am today. Pat was always a fun person to be around and he always looked after everyone first. I'll never forget him. My condolences to Mary Ellen and Mrs. o'keefe.
